

# Wintering in Canterbury: Infrastructure & Forage Crops

A practical day of insights, real-world experiences and expert advice to help you build resilient systems and strong business performance.

## KEY TOPICS

### Infrastructure – The Good, Bad & Ugly

Real talk on what works, what doesn't and what to consider when planning or upgrading your systems.

### Finance & Investment

Understand the investment, costs and returns of key business decisions.

### Winter Systems That Work

Feeding, forage crops and wintering strategies that drive performance while managing environmental impacts.

## GUEST SPEAKERS

**KEITH WOODFORD**

Leading authority on dairy infrastructure with decades of experience helping farmers design and manage efficient, cost-effective systems.

**BRENDON MALCOLM**

**Forage Crop Management**  
Practical strategies to optimise catch crops, mineralizable N and nitrogen on fodder beet crops for better performance with a focus on environmental implications.

### FARMER PANEL

Hear from local farmers sharing their experiences and insights.

**1 JULY 2026**  
WEDNESDAY  
ASHBURTON

### WHO SHOULD ATTEND?

Farmers, sharemilkers, farm managers and industry professionals.
